

Voter Survey
Montana

The Progress Campaign
Internal Poll

This new release includes a key correction from our original report. Our data guru was quarantined with COVID-19 at the tail end of the weighing process and an error ensued when the data was placed in the report. No data was affected.

The error was due to a typo on our data page. We collected data from 712 (LV), not 1,712. A detailed report on sampling and targeting is available upon request.

Poll conducted via online/text - April 14-21, 2020
For inquiries, contact 2020@OurProgress.org

Do you plan on voting in the 2020 General Election in Montana?

Yes - 712

Black..... **1%**

Latino..... **4%**

Other..... **7%**

Republican..... **37%**

Independent..... **32%**

Democrat..... **31%**

Donald Trump..... **57%**

Hillary Clinton..... **36%**

Other / Did Not Vote.. **7%**

Methodology

Using random sampling, we sent out text message invitations to an online voter survey with the above questions. Text message invites made up 81% of our final results, with the remaining 19% being done via landline (15%) and cell-phone calls (4%). The results then go through a 2-step weighing process to match expected turnout, as projected in the demographics section above. The margin of error of 4.6% reflects the concentration of voters surveyed in State Legislature districts which we have prioritized polling.
